MICHAEL J BRESNEHAN PARENTING SKILLS PROGRAM

MINUTE ENTRY

The Court has read and considered the Respondent's Motion for Reconsideration of Motion to Enforce Parenting Time Schedule. Respondent indicates that she has completed eight consecutive negative random tests and since the filing of her original motion, she has completed 6 more. Mother requests that she be given immediate parenting time with the minor child, Trustyn, born 5/18/03.

The file indicates that Mother placed Trustyn in Mother's ex-stepfather and his current wife's care immediately following the child's birth. She signed a power of attorney giving Mother's ex-stepfather and his current wife "indefinite" custody of her son. The Conciliation Services report dated June 2, 2004 concludes that there are serious concerns related to Mother and her ability to parent her child. Accordingly, the family evaluator recommends that Mother have supervised parenting time.

The Court agrees. There are several concerns relating to Mother's ability to parent her child including: (1) drug usage, (2) Mother's volatile temperament (Mother admitted to Conciliation Services "I'm a demon. I've gone ballistic"); (3) Mother knows little about raising a child; (4) Mother is on probation for possession of marijuana, a Class 6 felony and disorderly conduct, a Class 1 misdemeanor; and (5) Mother's mental health (Mother admitted to Conciliation Services that she was committed during her pregnancy because she was a "danger to Docket Code 023

herself and others at the time". In addition to these concerns, Mother has had very little contact with her son since his birth and a period of reunification will also be necessary so that Mother and child can bond.

Accordingly,

IT IS ORDERED that Mother may have parenting time with Trustyn every other Saturday for up to 3 hours to be supervised by Parenting Skills. Mother will be responsible for costs associated with Parenting Skills' supervision.
